Mr. Steven H. Gunderson
Rocky Flats Cleanup Agreement Project Coordinator.
Colorado Department of Public Health and Environment
4300 Cheery Creek Drive South
Denver, Colorado 80246-1530

Dear Mr. Gunderson:

The purpose of this letter is to deliver the Final Building 776/777 Pre-Demolition Survey Reports (PDSR) for Areas I, II and III for your review and approval. This transmittal is in accordance with the Building 776/777 Closure Project Decommissioning Operations Plan, Section 4.6 and is the result of the consultative process to establish and document the final status of the first eleven (11) of the total forty-six (46) survey units in Building 776/777. These reports are based on the approved Project Specific Non-radiological Characterization Plan for Building 776/777 (September 16, 2003) and the Radiological Pre-Demolition Survey Plan for Building 776/777 (August 8, 2003).

It is recognized that the final characterization of Building 776/777 will result in a significant amount of survey documentation. In order to simplify and expedite the review and approval process as discussed in the characterization plans, the reports are being delivered incrementally as sub-reports in lieu of a single large final report. The project has divided the building into eight total areas, seven on the first floor and one for the second floor. As survey units are completed and isolation controls are established for the completed areas, the characterization documentation is finalized. When all of the survey reports are completed, the final report delivered will include summary information from all of the survey reports in its conclusion. This final report will refer to all of the incrementally approved sub-reports and will comprise the Final PDSR for Building 776/777.

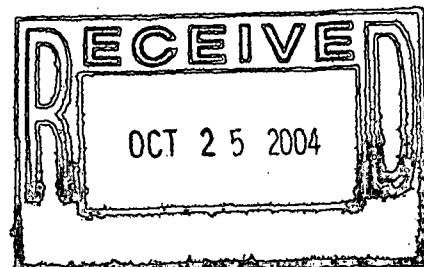

If you have any questions or require any assistance, please contact me at (303) 966-2282 or Gary Schuetz at (303) 966-3016.

Sincerely

Joseph A. Legare, Director
RFPO Project Management
